

Green Shipping Programme

Green Shipping Programme invites to a seminar

Pilot Projects for a green future

Agenda

1500	5	Welcome	H. Solberg, Norwegian Ship Owners' Assoc.
	5	Review of the agenda by Chairman	S. Oftedal, Ministry of Climate and Env.
1510	10	Green Shipping Programme – an overview	N. Mjøs, DNV
1520		Pilot project studies	
	5	Financing of 2° C shipping: Reducing the climate risk for key shipping stakeholders	S. Johannessen, KLP
	5	Transition Finance: How can investors incentivize shipping in the transition from fossil to renewable	M. Sandvik, DNB
	5	Ammonia as fuel: Feasibility of using ammonia on a passenger ship	R. Tomren, Color Line
	5	Liquid organic hydrogen carrier (LOHC): How can LOHC be a solution in a carbon neutral future	O. Moen, Siemens Energy
	5	Autonomous electric ferries: How can a smart system of ferries replace bridges and tunnels?	T. Eystø, Massterly
	5	Sustainable cruise traffic: Creating a realistic roadmap for reducing the environmental footprint	T. C. Sletner, Cruise Lines International Ass.
1600	10	Q&A	
1610	30	Break	
1640		Pilot projects under realization – from beginning to now	
	5	Shuttle tankers going towards net zero: From battery and LNG to carbon capture and storage	C. Fjell, Altera Infrastructure
	5	Shift from road to sea: How can autonomous sea-drones enable a zero-emission transportation system	P. C. Evjen, Asko Maritime
	5	Next generation short-sea vessels: How can the shipowners hedge their design for the uncertainty	A. Buskop, Vard
	5	Zero-emission bulk transportation: Cargo owners in lead	L. E. Marcussen, HeidelbergCement
1705	10	Q&A	
1715	20	Roundtable: From local to global scaling	P. K. Øye, Felleskjøpet K. V. Lundberg, Grieg K. O. Skotvedt, DNB
1735	85	Finger food and drinks	
1900		The end
