

Green Shipping Challenge

Announcement Submission Form

Thank you for your participation in the Green Shipping Challenge. The initiative welcomes announcements of concrete actions from countries, ports, companies, and other actors in the shipping value chain that will help put the shipping sector on a pathway this decade to align with the goal to limit global temperature rise to 1.5 degrees C. The Green Shipping Challenge—and the set of individual announcements under the initiative—will launch at a high-level event at COP27.

Opportunities

Participating in the Green Shipping Challenge means not only supporting the initiative in principle but also a) preparing at least one new announcement for COP27 and b) encouraging others, such as ports and companies, to participate in the initiative as appropriate. Announcements will be highlighted at the launch event and posted on the Green Shipping Challenge website. The Green Shipping Challenge coordinators will reach out regarding speaking opportunities.

Deadline for Submission

Please submit this form by **24 October 2022** to GreenShipping@state.gov. Earlier submissions are encouraged. If you have multiple announcements, you are welcome to submit multiple forms. The Green Shipping Challenge coordinators will be in touch with any follow-up questions by 28 October 2022.

Name of entity: Norwegian maritime partners

Please provide the name of your entity / organization

Entity type: Norwegian maritime clusters, norwegian shipping associations, ship owners, endterprice organisations, classification societies and finance. The participants are mentioned in detail under notes.

Please indicate the type of entity, e.g., government or regulatory authority; financial or insurer; knowledge community (includes research institutions); end customer, charterer, cargo owner, freight forwarder; energy provider (electric utility, fuel producer, etc.); port or terminal; shipowner and operator; shipyard and equipment OEM; other

Announcement title: Cooperation obligation to reach the zero emissions goal from maritime industry, shipping associations classification societies and finance

Please indicate how the title of your announcement should appear on promotional materials (15 words or fewer)

Announcement abstract: Through cooperation, the maritime cluster and shipping associations will work towards improved energy efficiency and reducing emissions by 50 % by 2030, in line with the Norwegian government's climate goal. We join forces to find the fastest way to zero emissions

The government's support to green initiatives and development of infrastructure for fossil-free energy will be key in this regard. The Norwegian Maritime cluster will develop, design and build the zero emission vessels of the future. To reach the entire industry we must provide and share zero-emission solutions, products and knowledge within the collaboration and out in the market.

The financial partners with maritime patronage use the capital instrument to support green measures and projects through risk capital, advice, requirements and expectations.

Please clearly describe the initiative and its impact (150 words or fewer)

Key performance indicators:

To reach the national goals by 2030, 700 low-emission and 400 zero-emission ships are needed in Norway only. To relieve the world's natural resources, the transition must consist of both a green conversion program as well as a green new building program. We will contribute to development of green shipping corridors through development of port infrastructure along the coast.

Please indicate your quantified targets and target years, e.g., vessels to be deployed (number/year); finance to be invested (amount/year); zero-emission fuel to be produced (mt/year); demonstration projects to be deployed (number/year); technology to be developed (type/date available); estimated greenhouse gas emissions to be avoided (mt CO₂e/year), etc. (50 words or fewer)

Representation at COP27: Yes, on Monday 7. november

Please indicate whether you expect to have a leader / minister / executive who will attend COP27 and for which days

Point of contact and contact details: Heidi Nakken, heidi.nakken@aakp.no (+47)91854021

Please include name, email, and WhatsApp number if available

Notes: Participants in the announcement with company names: GCE Blue Maritime cluster, NCE Maritime Cleantech, Næringslivets Hovedorganisasjon (NHO), Norsk Industri, Norges Rederiforbund, Kystrederiene, Maritimt Forum, Havila Kysttruten, Hurtigruten, Kongsberg and DNV

Please use this field to include any other information that would be helpful to the coordinators (150 words or fewer)
